

PEEP DOOR BLOCKS

FEATURES

Peep door blocks are tapered surface of refractory on the inside to get a better view from the peep door.

- 👍 Peep door blocks are made from a special vacuum manufacturing process. These offer the best strength and rigidity.
- 👍 Peep door blocks made from Folded blanket module.
- 👍 Peep Door blocks are not required when the heater has castable refractory. Castable refractory can be tapered around the peep door.
- 👍 Peep door blocks are provided with built-in SS-304/310 hardware to mount on the heater.
